# ABOUT US

Conscious choices,  
zero compromises.

At Elvara, we believe that every choice we make today shapes a better tomorrow. We are a forward-thinking company dedicated to providing sustainable bagasse tableware and food packaging solutions that are environmentally responsible, functionally superior, and aesthetically pleasing.

Made from sugarcane fiber — a renewable and abundant resource — our products are 100% biodegradable and compostable, offering a smart alternative to single-use plastics and harmful disposables.

From restaurants and cafés to catering services, food delivery brands, retailers, and distributors, we partner with businesses worldwide to make sustainability practical, accessible and impactful.

RENEWABLE.  
NATURAL.  
RESPONSIBLE.

## WHAT WE OFFER

-  Bagasse Plates & Compartment Plates
-  Bowls & Meal Trays
-  Clamshell Containers
-  Food Boxes & Takeaway Packaging
-  Custom Packaging Solutions
-  Export Supply & Global Sourcing Support

## WHY CHOOSE ELVARA?

-  Environmentally Responsible Products
-  Premium Quality Standards
-  Competitive Pricing
-  Reliable Supply Chain
-  Global Export Capability
-  Customer-Centric Approach

-  100% Biodegradable
-  100% Compostable
-  Oil & Water Resistant
-  Microwave-Safe
-  Suitable for Hot & Cold Use

## OUR VISION

To become a trusted global partner in sustainable food packaging by making eco-friendly alternatives accessible, affordable, and scalable for businesses worldwide.

## OUR MISSION

To empower organizations with innovative packaging solutions that protect the environment, promote responsible consumption, and contribute to a circular economy.

## OUR SUSTAINABILITY COMMITMENT

Every product we supply is designed with the future in mind. By utilizing agricultural waste such as sugarcane bagasse, we help reduce dependence on single-use plastics and support a cleaner, healthier planet for future generations.
